BEACH ISLE RESIDENTIAL COMPLEX IN EMAAR BEACHFRONTS, DUBAI

Beach Isle is a large luxury real estate complex in the Emaar Beachfronts. Here you can buy not only luxurious apartments but also individual townhouses on the first coastline of the Persian Gulf.

LOCATION AND TRANSPORT ACCESSIBILITY OF BEACH ISLE

The complex is located on one of Dubai's new man-made islands, where all the infrastructure is created for quality beach recreation and life by the sea in a closed island area.

Emaar Beachfronts is located between the Palm Jumeirah island complex and Dubai Marina, with easy access to Dubai Internet City commercial park and other areas of Dubai. The area offers quick access to Sheikh Zayed Road and a major highway interchange, making it easy to reach any part of the city by personal vehicle. There are also public transport and metro stations close to Beach Isle.

Beach Isle's internal infrastructure

Beach Isle offers the best conditions for a comfortable stay on the shores of the Persian Gulf, where you can enjoy your time without leaving the boundaries of the residential complex.

RESIDENTIAL PROPERTIES IN BEACH ISLE

There are two main options in the residential complex. You can choose classic apartments of 231 m² to 547 m² or large townhouses with a maximum area of 779 m². Villas usually have three or four bedrooms. Smaller one and two-bedroom apartments are also available.

BEACH ISLE INVESTMENT IN EMAAR BEACHFRONTS, DUBAI

Today, the infrastructure of the new island community Emaar Beachfronts is under active development. Given the fact that the project is being developed by Emaar, a major developer of international fame, the near future could see this place becoming a hive of activity. Investing in luxury real estate in Beach Isle at the stage of construction of the residential complex is a way to purchase housing at the most favorable price. Many investors are opting to do so, making money on the resale of the property. A good option would be to buy an apartment or townhouse to rent to tourists or locals, as demand for rent in the coastal residential complexes is traditionally high.
